D. Entering Averages

13. Any bowler entering WIT must have an established ten-pin average acceptable to USBC. The following rules shall be used to determine the entering average:
 - a. The bowler's highest 2021-2022 single league average of 21 games or more shall be used unless a circumstance as described below would cause the usage of a different average.
 - i. If the bowler has a current (2022 – 2023) single-league average that is ten (10) or more pins higher than the above average, it is the responsibility of the bowler to report this average to tournament management prior to bowling in which case said higher average shall be used. Failure to report this higher average shall be cause for disqualification and forfeiture of all prize winnings whether the average discrepancy is discovered before, during, or after competition.
 - b. If the bowler has an IGBO TAD of 18 games or more for the period of January 1, 2022 through December 31, 2022 that is one or more pins higher than the above averages, then the Tournament may opt to use the 18-game IGBO TAD.
 - c. If none of the above are available, the bowler shall be assigned an entering average of 225.
 - d. If a bowler has not participated in **ANY** league during the period covered by the above rules and does not have an IGBO TAD average for the period addressed above and believes that the 225 tournament scratch score should not be applicable to them, they may submit verified scores from the Directors of all IGBO tournaments bowled over the period of March 1, 2019 through December 31, 2022 to the Tournament Director for consideration. This period must consist of a minimum of 18 games and the bowler must submit scores for **ALL** IGBO tournaments bowled over this period. It is the responsibility of the bowler to gather and submit these scores to the Tournament Director prior to December 31, 2022 for consideration. In these circumstances, the final decision for the bowler's average will be at the Tournament Director's discretion.
14. Averages from sport bowling leagues will be accepted using the USBC sport bowling average conversion chart to determine entering average.
15. The handicap for the tournament shall be based on 90% of the difference between the bowler's entering average and a scratch score of 225. Negative handicap will NOT be used.

E. Re-rate Policy

16. The Tournament Directors have the authority to adjust the entering average of any bowler or assign a provisional average pending verification. Average adjustments will be applied as set forth under USBC Tournament Rules. All average adjustments will be

completed prior to any event. A bowler unwilling to accept an average adjustment is entitled to an event refund.

17. A bowler is required to adjust their entering average if, during the 12-month period immediately preceding WIT, the cumulative average for all, but not less than, 21 tournament games in which the bowler has participated, exceeds the average used for entry by one (1) or more pins. It is the bowler's responsibility to submit this adjustment, in writing, before the end of the first frame of tournament play. Failure to accurately report these scores shall be cause for disqualification and forfeiture of entry fees and prize winnings if discovered.
